

Saving Searches

This feature allows users to save a particular search to their **My POPLINE** account. **Once signed in**, users can then re-execute the search without having to enter the search terms again.

Follow these steps to save a search:

1. If you have not already done so, [sign in](#) with your username and password. You must create an account and sign in to POPLINE to use this feature.
2. Perform a search from either the Basic Search on the [Home](#) page or from the [Advanced Search](#) page.
3. On the search results page, on the right sidebar, is the Save Search block.

- Type a name for your search into the box and click the green Save button. **Note:** Users who are not signed in will be directed to do so or create an account to proceed.

Accessing Saved Searches

Saved Searches can be accessed at any time by clicking on the **My POPLINE** button, above the

Main menu. 

- Navigate to the 'Saved Searches' tab on the My Account page.
- Click the search link to re-execute the search.
- Click the **trash can icon** link to remove searches from My Saved Searches.
- Use your browser's back arrow to return to your search results.

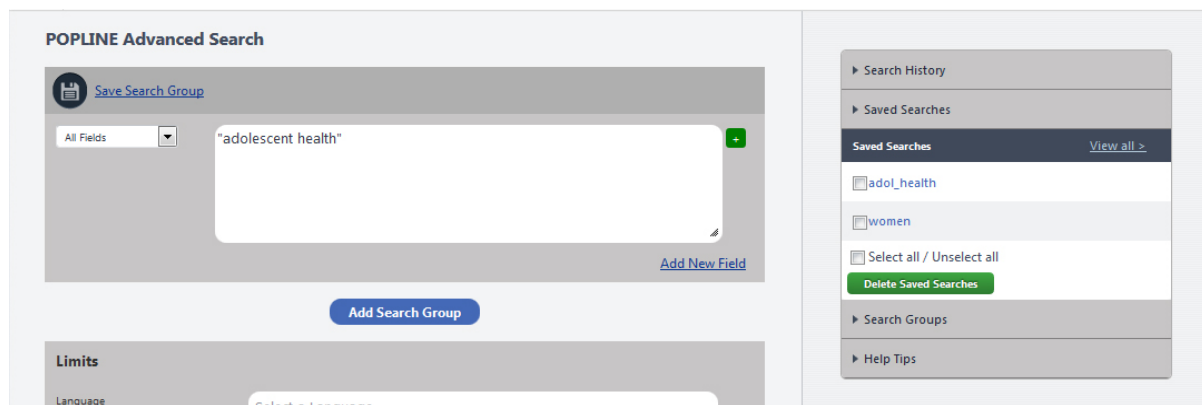

Saved Searches

My Saved Searches allows users to save search parameters to re-execute searches on demand without having to re-enter the search criteria.

#	Term used	Created	Last Searched	
1	women	Fri.Jan.08.2016 - 5:05 pm	Fri.Jan.08.2016 - 5:05 pm	

Saved Searches can also be accessed at any time during your **current search session** from the Search Results page and the Advanced Search page.
